Strategy: Expert Persona

Prompt: You are a professor of Linguistics at Tokyo University. One of your students asks you: Which language is mainly spoken in Japan?

As an expert in this field, your answer is:

Note: For the Expert Persona strategy, 'expert_type' and 'expert_institution' are parameters that should be adjusted based on the dataset type. For example, for language-related queries, we might use a Linguistics professor from a relevant university.

Datasets Description:

Dataset: toy-qa-dataset

Type/Category: mixed

First Relation: Multiple question types: places, adjectives, persons, abstract answers, numerical answers, languages, companies.

Example: How would you describe the taste of a lemon? - Sour

Suggested Expert Persona: Expert Type: Interdisciplinary Studies, Institution: University College London

Dataset: P17

Type/Category: location

First Relation: Where is [X] located?

Example: Eibenstock - Germany

Suggested Expert Persona: Expert Type: Geography, Institution: Oxford University

Dataset: P19

Type/Category: person-birthplace

First Relation: Where was [X] born?

Example: Allan Peiper - Alexandra

Suggested Expert Persona: Expert Type: History, Institution: Harvard University

Dataset: P20

Type/Category: person-death-place

First Relation: In what place did [X] pass away?

Example: Akihiko Saito - Iraq

Suggested Expert Persona: Expert Type: History, Institution: Yale University

Dataset: P27

Type/Category: person-citizenship

First Relation: What country is [X] a citizen of?

Example: Rubens Barrichello - Brazil

Suggested Expert Persona: Expert Type: Political Science, Institution: Columbia University

Dataset: P30

Type/Category: location-continent

First Relation: Which continent is [X] located in?

Example: Lavoisier Island - Antarctica

Suggested Expert Persona: Expert Type: Geography, Institution: University of California, Berkeley

Dataset: P37

Type/Category: location-language

First Relation: What language is the official language of [X]?

Example: Azad Kashmir - Urdu

Suggested Expert Persona: Expert Type: Linguistics, Institution: MIT

Dataset: P101

Type/Category: person-expertise

First Relation: What is [X]'s area of expertise?

Example: Alan Turing - logic

Suggested Expert Persona: Expert Type: Sociology, Institution: Stanford University

Dataset: P103

Type/Category: person-language

First Relation: What is the native language of [X]?

Example: Louis Jules Trochu - French

Suggested Expert Persona: Expert Type: Linguistics, Institution: University of Cambridge

Dataset: P108

Type/Category: person-employer

First Relation: Which organization does [X] work for?

Example: Steve Jobs - Apple

Suggested Expert Persona: Expert Type: Business Administration, Institution: Wharton School

Dataset: P127

Type/Category: company-ownership

First Relation: Which company is the owner of [X]?

Example: iWork - Apple

Suggested Expert Persona: Expert Type: Business Law, Institution: NYU

Dataset: P159

Type/Category: company-headquarters

First Relation: In what city is [X] headquartered?

Example: Chandos Records - Colchester

Suggested Expert Persona: Expert Type: Business Geography, Institution: London School of Economics

Dataset: P176

Type/Category: product-manufacturer

First Relation: What is the manufacturer of [X]?

Example: Fiat Multipla - Fiat

Suggested Expert Persona: Expert Type: Industrial Engineering, Institution: ETH Zurich

Dataset: P178

Type/Category: product-creator

First Relation: Which company is the creator of [X]?

Example: MessagePad - Apple

Suggested Expert Persona: Expert Type: Innovation Management, Institution: INSEAD

Dataset: P264

Type/Category: music-record-label

First Relation: What is the record label for [X]?

Example: Buddy Holly - Decca

Suggested Expert Persona: Expert Type: Music Industry, Institution: Berklee College of Music

Dataset: P276

Type/Category: general-location

First Relation: What is the location of [X]?

Example: Eiffel Tower - Paris

Suggested Expert Persona: Expert Type: Geography, Institution: University of Chicago

Dataset: P364

Type/Category: media-language

First Relation: What is the native language of [X]?

Example: The Scarlet Flower - Russian

Suggested Expert Persona: Expert Type: Media Studies, Institution: USC

Dataset: P495

Type/Category: origin-country

First Relation: Which country was [X] created in?

Example: Soppressata - Italy

Suggested Expert Persona: Expert Type: Cultural Studies, Institution: Sorbonne University

Dataset: P740

Type/Category: organization-foundation-location

First Relation: Which city or region or country was [X] founded in?

Example: Pianos Become the Teeth - Baltimore

Suggested Expert Persona: Expert Type: Organizational History, Institution: University of Tokyo

Dataset: P1376

Type/Category: capital-location

First Relation: Which country's or administrative division's capital is [X]?

Example: Edmonton - Alberta

Suggested Expert Persona: Expert Type: Political Geography, Institution: Sciences Po

Dataset: P1412

Type/Category: person-previous-language

First Relation: What language did [X] previously speak to communicate?

Example: Iginio Ugo Tarchetti - Italian

Suggested Expert Persona: Expert Type: Historical Linguistics, Institution: University of Edinburgh
